Hello Rusty. I believe it would be appropriate for these to be placed in OPP's rodenticide docket or on the OPP rodenticide website rather than in the SAP docket. These comments were solicited by OPP as a separate mechanism from the SAP peer review process. Essentially, these comments were not part of the SAP's review of the issue so they shouldn't be in the SAP docket.

Hello Joe,

Please find attached CDC comments on our proposed cancellation. Do you plan to add these to the SAP docket?

Also, I will send you the USDA comments in the next email.

Best,

Rusty_____

Subject: Proposed Risk Mitigation Decision for Rodenticides - Comments on EPA regulation (2206255)

Eric,

In November of 2011, CDC was asked to review EPA's "Notice of Intent to Cancel and Notice of Denial of Registrations for Certain Rodenticide Bait Products." CDC concurred with some specific comments at that time. We understand that EPA is finalizing its work on this notice. We would like to take this opportunity to reiterate our previous comments from May, 2007 for the record.

I would greatly appreciate your assistance in forwarding these comments to the appropriate subject matter experts within EPA. If you or the SMEs have any questions, please contact my staffer Sally Toye at 404-639-7082 or SToye@cdc.gov.

Thank you.

Ron
